

At Least 2700 children have been separated from their parents as of May, 31 2018. This means on average about 45 children are separated from their parents everyday, and there is no plan or sign of them being reunited with their parents. How can a country with the foundations of freedom or a country that is known as the land of the free be doing this to human beings trying to attain a better life. Immigration is crucial to the success of this country so we shouldn't treat immigrants as pests, remember their humans too.
